

# High Street Histories

## Episode 6 / Next to The Blue Anchor

In this episode you might come across some new words, here are some we thought were interesting:

**Architecture** – Architecture is the art and science of planning, designing, and constructing buildings.

Jot down things you find interesting...

What types of shops are mentioned in this episode?

Photographs give us a chance to time travel, looking at how we lived in the past. Here's a photo of Lowestoft's High Street in the 1870s.

**What do you notice that is different?**

**What would be in the street now that isn't there in the 1870s?**

**What would you see, what would you hear?**

**What would you miss that wasn't invented or available in the 1870s?**

**Write a four-line poem about time travelling back to this photo:**

first line about a door,  
second line about a window,  
third line about the street,  
final line about something that isn't there

**Example:**

**Time Travel to the 1870**

I knock on the door and a man answers in a suit and hat with a big beard

I look in the shop window and want to buy

I walk down the street and hear a horse and carriage

I can't find my mobile phone and couldn't get a signal anyway.
